

OAK TRUST OUTLINE FULL OPENING OF SCHOOLS RISK ASSESSMENT

Activities Covered by this Assessment	Full opening of schools during COVID 19 (Autumn Term 2020) Based on Government guidance		
Site Address / Location	Manor High School	Department / Service / Team	All MHS Departments
<p>Note: A person specific assessment must be carried out for disabled staff and new and expectant mothers conducting this activity</p> <p>As part of planning for full return in the autumn term, it is a legal requirement that schools should revisit and update their risk assessments (building on the learning to date and the practices they have already developed), to consider the additional risks and control measures to enable a return to full capacity in the autumn term. Settings should also review and update their wider risk assessments and consider the need for relevant revised controls in respect of their conventional risk profile considering the implications of coronavirus (COVID-19). Schools should ensure that they implement sensible and proportionate control measures which follow the health and safety hierarchy of controls to reduce the risk to the lowest reasonably practicable level.</p> <p>Engage with the NHS Test and Trace process: Schools must ensure they understand the NHS Test and Trace process and how to contact their local Public Health England health protection team. Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to: book a test, self-isolate. Anyone who displays symptoms of coronavirus (COVID-19) can and should get a test. Tests can be booked online through the NHS testing and tracing for coronavirus website, or ordered by telephone via NHS 119 for those without access to the internet. Essential workers, which includes anyone involved in education or childcare, have priority access to testing. Health Protection Team (PHE) 0344 2254 524 (option 1) This number will re-direct to current provider</p> <p>Schools should ask parents and staff to inform them immediately of the results of a test: ‘stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection’</p> <p>Guidance for full opening: schools. Please refer to: https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools</p> <p>System of control: This is the set of actions schools must take.</p> <p>Prevention: 1) minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school. 2) clean hands thoroughly more often than usual. 3) ensure good respiratory hygiene by promoting the ‘catch it, bin it, kill it’ approach. 4) introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach. 5) minimise contact</p>			

OAK TRUST OUTLINE FULL OPENING OF SCHOOLS RISK ASSESSMENT

between individuals and maintain social distancing wherever possible. **6)** where necessary, wear appropriate personal protective equipment (PPE).

Numbers 1 to 4 must be in place in all schools, all the time. Number 5 must be properly considered, and schools must put in place measures that suit their particular circumstances. Number 6 applies in specific circumstances.

Response to any infection: **7)** engage with the NHS Test and Trace process. **8)** manage confirmed cases of coronavirus (COVID-19) amongst the school community. **9)** contain any outbreak by following local health protection team advice.

Numbers 7 to 9 must be followed in every case where they are relevant.

Attendance: School attendance will be mandatory again from the beginning of the autumn term. This means from that point, the usual rules on school attendance will apply, including:

- parents' duty to secure that their child attends regularly at school where the child is a registered pupil at school and they are of compulsory school age;
- schools' responsibilities to record attendance and follow up absence
- the availability to issue sanctions, including fixed penalty notices in line with local authorities' codes of conduct

For further advice on clinical and/or public health advice please refer to: <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools> **Pupils who are shielding or self-isolating**

PPE:

The majority of staff in education, childcare and children's social care settings will not require PPE beyond what they would normally need for their work, even if they are not always able to maintain a distance of 2 metres from others.

OAK TRUST OUTLINE FULL OPENING OF SCHOOLS RISK ASSESSMENT

PPE is only needed in a very small number of cases:

- Children, young people or learners who require first aid should continue to receive care in the same way. No additional PPE is needed because of coronavirus (COVID-19) for anyone who does not have coronavirus (COVID-19) symptoms.
- Where an individual child, young person or other learner becomes ill with coronavirus (COVID-19) symptoms and only then if a distance of 2 metres cannot be maintained.
- Where a child, young person or learner already has routine intimate care needs that involves the use of PPE, in which case the same PPE should continue to be used.

It is advised that schools carry out an inspection of the premises before full opening and record the findings.

Monitoring and review of risk controls

It is important that employers know how effective their risk controls are. They should monitor and review the preventive and protective measures regularly, to ensure the measures are working, and taking action to address any shortfalls.

OAK TRUST OUTLINE FULL OPENING OF SCHOOLS RISK ASSESSMENT

Potential Severity of Harm	High Death, paralysis, long term serious ill health.	Medium	High	High
	Medium An injury requiring further medical assistance or is a RIDDOR incident.	Low	Medium	High
	Low Minor injuries not resulting in any first aid or absence from work.	Low	Low	Medium
	Low The event is unlikely to happen.	Medium It is fairly likely to happen.	High It is likely to happen.	
Likelihood of Harm Occurring				

Risk Rating Definitions	
Low	This is an acceptable level of risk. No further controls are required as the risk rating cannot be reduced any further. However, it is advised that continual monitoring occurs in order to ensure that no changes / deviation of control measures occur.
Medium	It is advised that further controls are implemented to reduce the risk rating to as low a level as possible. If the risk cannot be reduced to lower than a medium, then on site monitoring should occur to ensure that all stipulated controls are being adhered to.
High	This is an unacceptable risk rating. Urgent interim controls should be implemented to reduce the risk so far as is reasonably practicable. If the risk rating cannot be reduced to lower than a High , then a documented safe system of work should be implemented to control the activity. It may be necessary to seek further professional advice. Serious considerations should be given to the validity of carrying out the activity at all. Regular monitoring of the activity should occur.
