

COVID-19 LATERAL FLOW TESTING AT HOME

1

Follow the instructions in the NHS booklet

All students who have been issued with test kits for use at home will have been issued with a blue book that explains how to perform the test. Follow these instructions carefully.

You might also find this YouTube video helpful in learning how to conduct these tests:

<https://www.youtube.com/watch?v=S9XR8RZxKNo>

2

Register the test results with the NHS

It is important that you record the results of the test, either positive, negative or void on the NHS website:

<https://www.gov.uk/report-covid19-result>

It is worth setting up an account for your child as it makes the registration process a lot quicker.

3

Register the test result with us

Finally, we need you to record the same test result with us on this short form:

<https://www.surveymonkey.co.uk/r/testresults-student>

This is so that we know the result of your test as the NHS do not share results with us.

If it is a **positive** result, please contact school by telephone on 0116 271 4941 (out of office hours please also email support@manorhigh.leics.sch.uk).
