Post-16: Key dates for Manor High Yr 11

All students have been working on personal statements with CHS teachers in school. However, the onus is on the students themselves to get these completed and online (staff are more than happy to check them). With this, students have also been gaining information about the different types of course available to them.

Students should visit a range of Post-16 schools and colleges to help them make their decisions regarding where they are going to apply to. Students should always have a back up option and not just apply to one provider.

1 to 1 interviews with Cheryl McCarthy will help students to understand which courses / colleges are best for them. These start in October and continue through November. They happen during school time and are organised for the students.

Post-16 school and college open events take place through October and November.

Our own Manor High Post-16 event on 23rd November is a chance to meet local providers and help students to firm up their decisions before the 30th November deadline.

At all times students can talk to tutors, CHS teachers and staff about any advice and guidance they need.
