## Paper 3: **Geography Scholar** Geography Exploration Is the UK losing its global significance? Case Study: How is the UK's Investigate: How do changing? rivers change from ange Biosphere Why should ase Study: source mouth? What influences the How is the UK's landscapes of the Oxfordshi tropical UK? Rivers population changing? rainforests ase Study: Leicester matter to liver Tees Paper 1: What makes a . Physical How is the UK landscape Sustaining fieldwork Paper 2: UK changing in the distinctive? Ecosystems in 21st 21st century? Century why are natural ecosystems on the more to polar why are natural ecosystems on the more than the more What influences the How do you carry out landscapes of the UK? Coasts coastal fieldwork? Case Study: North Norf How can countries Paper 1: ensure their food Distinctive How can tecton How has increasing demand for ase Study: security? Landscapes movement be End of topic resources affected our planet? hazardous? End of tonic assessment Paper 1: Global technology have Hazards Resource save lives in hazard zones? End of tonic it mean to be Why do we Mid of topic What processes What they should How sustainable are these assessment food secure? assessment occur at plate already know/KS3 strategies? boundaries? extremes? Links to GCSE: What is life like for people What evidence is there How can cities How has an LIDC for climate change? Why are some countries End of topic leveloped so far? mbia (LIDC) KS3 curriculum become more richer than others? What does rapid urbanisation Are LIDCs likely has been sustainable? mean for cities? assessment designed to to stay poor? What ensure students has led have the base knowledge of key How is the global Changing **Urban Futures** unever human and Climates pattern of develo physical urhanisation What development pment? processes that changing? C: Leiceste strategy can be applied to Why is climate What global What is What evidence is change a is most development Including: there to suggest global issue? appropriate? influence its and how can it Dynamic climate change is a Tectonic development? be measured? Development natural process? processes Variety of What are the similarities Case Study How to survive in cold Ecosystems and difference between Middle East How has environments? Development and What's the population Mini Topic: Population shaped patterns What is Africa between hot Q Leicester really like? and cold What they How is the nvironments? How to survive should already worlds How has Case Study: in hot know: ssessment: population population environments? **Hot and Cold** Population changing shaped The difference What are the impacts of humans on the coral What are the □<u>-</u> Assessment: coastlines? and physical What is the coral What is the UK geography. How sustainability environmental issues in SE Coasts triangle? triangle? coastline like? can be linked to How does all aspects of population Is Southeast shape places? Asia important Sustainable? What is the problem What is the Borneo Case Study: Holbeck human processes Southeast Case Study: Tourism What process and Hall disaster landforms shape the in Ko Phi Phi, with palm oil? Thailand coast? at the What is the difference How is the earth Tectonics Coast? Assessment: <u>--</u> between weather & climate? □-**⊗**Settlements structured? Weather Like? Case Study: White What they Island , NZ should already Enquiry: Fieldwork: Enquiry: Case Study: What know: Need Tectonics -Does MHS How does Students happens when have a How does weather should have settlements grow litter the planet work? understanding (AC)? problem? work? of some human What is a and physical How do we measure How do we natural hazard? What problems earthquakes? processes that measure Assessment: 🖳 🚓 What do cities do volcanoes Weather shape What processes look like? ssessment: create? landscapes and How do we effect rivers? Rivers & What is What problems do What is geography? how people use rivers? sustainability? live. urban areas face? **Enauiry:** They should be **Enauiry:** How do **Enauiry:** able to apply What rivers change What are this at different settlements from source makes Geography scales: distributed? places to mouth? Skills Local, National What is a different? (UK) settlement? What landforms Global Scale are found along What are map the river? Map skills skills? Case Study: Flooding -Can we stop Where do flooding? Leicester v Bangladesh rivers flow?
