

**Jesse Jackson**

**Chair of Governors**

**School Behaviour and Health and Safety**

My Name is Jesse Jackson. It is a privilege to serve as Chair of Governors at this excellent and vibrant school.

I am Head of Digital and Adult Skills at the Loughborough College Group and have worked in education for 7½ years following my discharge from military service.

I have experienced the power of education at first hand and have seen how education has shaped and built the confidence of our young people. Becoming a governor of the school enables me to give back to you and your community by supporting and challenging your excellent leaders and teachers to ensure that they provide the best possible educational experience for the next generation.

It is our role as governors to ensure that the needs of your community are enhanced and that all those connected to Manor High School are valued and appreciated. As your Chair of Governors, I am committed to ensuring Manor High's team of professionals prepare the next generation of highly skilled, motivated and innovative young people that are well prepared for their next challenge of Post 16 education and beyond.
